THE PRESIDENT'S MESSAGE.

THE WORLD's Washington despatch of yes terday prepared our readers for the unique and remarkable Message which the President sent to Congress to-day.

The Message is brief, as the despatch said it would be. It discusses but one questionthe necessity of stopping the surplus by reducing taxes as Tue Wort p's representative was enabled to announce would be the case. In thus pressing upon Congress the issue

of "paramount importance," to the exclusion of all others, the President has shown a true comprehension of the situation. He has championed the cause of the long over-bur dened taxpayers. He has made himself the defender of business interests imperilled by a prospective lock-up of money. And he has supplied his party with what it has long lacked-an issue and a leader.

In schieving this, the President has don what THE WOBLD has for a long time urged him to do.

The statement of the injustice and the danger of a surplus is clearly and strongly made. The one avenue of escape from the peril is plainly pointed out. The "vicious, inequitable and illogical" Tariff Law is fearlessly characterized. And the recommendation is squarely urged of an extension of the free list and a reduction of the duties on the necessities of the people.

The President truly says that this is not a question of free trade or protection. " It is a condition which confronts us, not a theory,' he avers. And he declares that the "per sistent claim made in certain quarters that all efforts to relieve the people from unjust and unnecessary taxation are schemes of socalled free traders is mischievous and far removed from any consideration for the public good."

to be congratulated on the President's sagacity and courage in seizing upon and forcing to the front the paramount issue of our politics.

THE SPEAKER'S ADDRESS.

Speaker Carlisle's inaugural address is the utterance of a progressive conservatism. He emphasizes the fact that "a revision of our revenue laws and a reduction of taxation are absolutely necessary." And yet he recognizes the other fact that in the interest of both capital and of labor "hasty and inconsiderate legislation" should be avoided. A "moderate and reasonable reduction of duties" is what the Speaker urges.

This is all that the revenue reformers ask: a slight abatement of the surplus-producing war tariff. The Speaker stands on the safe middle ground with the President.

REPORM STILL LIVES.

A spoils organ rejoices over the absence from the new Congress of two members who were conspicuous defenders of Civil-Service Reform in the last House.

One of these men, Mr. WILLIS, was defeated by reason of the successful fight that he made to control the appointment of the Louisville Postmaster. The other, Mr. Cox. was left at home for reasons wholly unrelated to his advocacy of reform.

But though men may come and men may go, Civil-Service Reform will go on to its final triumph. It will succeed because it is necessary and is right. Revolutions do not go backward.

The President will continue to support the Civil-Service Commission. Congress will not dare to repeal the law. The reform is here to

ANGELS AND CONTRACTORS.

Mayor Hawirr has renewed his quest for an angel for appointment to the Park Commis cion in place of Comptroller-elect MYERS. A ninent County Democracy man, who is at the same time a prominent contractor, is

And it may not be amiss to observe that the descent from celestial heights to the plane

where the plums of public contracts flourish is somewhat precipitous. Between an angel and a contractor there is a distinction with a difference quite perceptible to the naked eye.

TWO BIGNIPICANT PACTS.

SAMUEL GOMPERS, President of the Amerian Federation of Labor, was a sympathizer with the condemned Anarchists of Chicago and labored with Gov. OGLESBY in their be half. It is fair to suppose that he has a soft side for the adherents of the red flag.

T. V. Powderly, General Master Workman of the Knights of Labor, is resolutely opposed to the Anarchists, and all that savors of Anarchy. He has devoted his best efforts to driving this element from his order.

As the Federation is gradually assuming a attitude of rivalry to the Knights, these are two significant facts that the intelligent American workingman, who believes in American institutions and American methods, may well bear in mind.

A WARNING FROM MAINE.

Congress may find a moral and a warning

in a bit of criminal news from Maine A rich and miserly old farmer of that State who has spent his life in hoarding money, was relieved Sunday night of \$32,000 of his surplus by burglarious robbers.

The Treasury raiders are now gathering at Washington to relieve Uncle Sam of his surplus. Remove the temptation by abating the excess. No man or party would dare to pro pose new taxes to pay for jobs.

THE BARBERS' CONVENTION.

Some very sensible measures for the amelioration of the condition of the journeymer barbers of the country are proposed in the Convention at Buffalo.

The wielding of the professional razor would appear to be a perennial joke, according to the funny papers. But, as a matter of fact, the barbers are one of the most overworked as well as the most useful classes in the community.

It is certainly a very reasonable proposition that their work should be limited to eighty-six hours per week, and that the prevalent custom of boarding with bosse hould be abolished.

Let the barbers form their union, adopt a good apprentice system, arrange for arbitration of disputes, and insist on fair treatment in the matter of wages and hours. They have the sympathy of every man to whose creature comforts they so deftly administer

Mr. HAYNES, the Maine member of the Re publican National Committee, says if that State goes Republican or Democratic one year it is pretty apt to go the same way the next year. But he regards New York as "different" and "more changeable." Some people are never satisfied. An unbroken series of Democratic victories for six years certainly has the aspect of regularity.

The better France's new President is known the better Republican he appears to be. He did not canvass for a single vote. The office sought the man. Moreover, he said he would accept no election that depended in any degree on monarchial votes. It is a good thing to have a Republican at the helm of a Republic.

The synopsis of the President's message. printed yesterday exclusively in THE WORLD, is a worthy sequel of its great CLEVELAND interview. In "beats" at Washington, as elsewhere, THE WORLD is usually ahead.

Of course, the corrupt Chicago officials rejoice and make capital of the decision in the Sharp case. As a bulwark for boodlers here there and everywhere it is a great suc-

Quarrelling About Their Mail.

[SPECIAL TO THE WORLD.] NEWARK, Dec. 6.—Postmaster-General Vilas has approved of the Newark Postmaster's action regarding the letters of Burgess & Co., in this city. Runyon received the letters when the firm dis-solved. O. E. Runyon, one of the partners, continued the business and received letters for the old firm. Burgess complained of this, and the mall was then sent to him. Then Runyon took exceptions, and the postmester returned all letters to the senders when their name was on the envelope, and the rest to the dead letter office.

Comment Unnecessary-See the Message. [From This Morning's New York Sun.]

THE WORLD printed yesterday a double-leaded espatch stating, with circumstantiality, all the stents of the President's message to be delivered to-day to Congress. This feat had its parallel when THE WORLD hung the Chicago Anarchists two hours before the fact, and sold the harrowing details for a cent to its swindled readers. There was this difference, however; the Anarchists were really about to be hanged, whereas Presiden Cleveland is not about to deliver the message ascribed to him by THE WORLD.

PREDDY REILLY'S CRUELTY. HIS VICTIM HAUNTED HIM.

Why He Held His Playmate, Little Tomm; VISIONS OF A SPECTRE THAT DROVE JOHN

Ten-year-old Freddy Reilly, who so terribly tortured four-year-old Tommy Jones vesterday at the Home of the Sisters of Peace, 78 Grand street, Jersey City, of which both boys are inmates, was arraigned in Jusice Stilsing's Court this morning.

The injured boy was unable to appear, as he is lying in a critical condition at the Home. Police Capt. Farrier told the story John J. Delaney, the confessed murderer of young Mary Jane Cox, who was found

in the kitchen of the Home for a few minutes yesterday morning.

Young Reilly is described as a boy possessed of a character purely devilish. He proved it by seizing his playmate, gagging him with a handkerchief, stripping him of every stitch of clothing and holding him on the red-hot lids of the kitchen range.

The gag prevented any outery by the child until he had been terribly burned. When it slipped off in his struggles his shricks brought Sister Evangeline to the kitchen in time to safe his life.

Dr. Gray was summoned and everything done to save the child's life, but it is now a question of life or death. The boy's sufferings are described as awful.

When Reilly was asked by Justice Stilsing why he burned the child, he answered without a trace of tears: "I was kinder mad at him for somethin."

COMPLICATED MUSICAL AFFAIRS.

Vexed Question of Representation in the Central Labor Union.

The 2,500 members of the Musical Mutual Protective Union are greatly agitated over the complicated state of affairs arising out of their attempted affiliation with the central trades and labor bodies.

This lasted for months. His face became pale and careworn. His companions noticed the change and wondered at it, as well as at his forced merriment. Under a former administration no repre sentation was sought in the Central Labor Union by the Musical Union, but a change in the officers brought about a representation in the Central Union. as at his forced merriment.

Then in place of an occasional drink he took many. His position, which he strove hard to keep, was lost. He found companions in barrooms and among the lowest classes, and in their midst sought in vain to

in the Central Union.

Lately the latter expelled the delegates of the Musical Union, but the Balfe Musical Club, which is composed of members of the Musical Union, has a representation in the Central Labor Union.

Now the Musical Union men want to know why the Central Labor Union does not expel the Balfe Club, or, ergo, why have the Balfe Musical Mutual Union,men a representation in the Central Union? drown his haunting thoughts.

Finally, so desperate did he become that for weeks, according to the statement of a friend of his sister's, the young man never drew a in the Central Union?

The annual election of officers of the Musical Mutual Protective Union will take place next Thursday, at 64 East Fourth street. The annual meeting will be held at 2 p. m. the same day in the Germania Assembly Rooms, 291 and 293 Bowery.

weeks, according to the statement of a friend of his sister's, the young man never drew a sober breath.

Then, when at last the strain seemed unbearable, he determined to acknowledge his guilt. What the consequences were, he did not stop to consider, and last Saturday night he started for the Adams street police station in Brooklyn.

The confession required more courage than he possessed, so he began to drink. With the extra stimulant his timidity forsook him and at the station-house he grew bold and left without any explanation of his visit.

Sunday came and with it returned his remorse. All through the long hours of that day the spirit of the dead girl was before him. He says he thought of the consequences of a confessiou and resolved not to make one for fear of the gallows.

But the longer he thought the weaker grew his resolution, until Sunday night, with a full knowledge of the fact that probably death would be his punishment, he again started for the police station.

This time he did not falter, but explained his connection with the murder and told how when the girl asked him for medicine he deliberately bought rat poison, mixed it with water and without explaining the nature of the mixture, gave it to the girl, who drank it and died. same day in the Germania Assembly Rooms, 291 and 293 Bowery.
Alexander Bremer and Anthony Reiff are candidates for President, and W. H. Anstead and Henry Ottes for Secretary. The latter represents the Knights of Labor in the union and is said to be anxious to have that body get control of the Musical Union. He is a member of the Baife Club. The regular ticket is likely to be elected.

Yarns by a Half-Frezen Girl.

A fourteen-year-old girl, dirty and blear eyed, who was tound suffering from the cold in the street early this morning, amused herself to-day by telling conflicting stories to the officials at Police Headquarters. Her first yarn was that she was released from the House of Refuge eight weeks ago, went to the Sisters' Home in Housen street and subsequently was taken home by her father, who lived on Eleventh avenue, near Twenty-sixth street. When informed that there were foundries and factories, but no tenementhouses in that vicinity, she said that her father was John O'Toole, a moulder in Delamater's Iron was John O'Toole, a modifier in Delamater's from Works, and that after having her bangs out in a barber shop, near Eleventh avenue and Thirtieth street, last night, she stood in front of a cigar store waiting for her father, when "something come over her," she lost her head and did not know where she went. Somebody who does "not let his right hank know what his left doeth" had abstracted the umbrella.

The umbrella was a cherished stick. It had an oxidized silver handle and "J. C." was delicately graven on its head. But its great value was as a memory. It was the gift of a dead friend.

Miss Corson rushed into print. Yesterday evening she had heard nothing. She then thought that she would try the Metropolitan Opera-House on a forlorn chance.

"You haven't heard of my umbrella, I suppose," she said to Mr. McLaren.

"Miss Corson, prepare yourself. Your—umbrella—is—here!" said that worthy. "It was handed in just now."

DREARY DAYS FOR MURDERERS.

Dan Driscoll a Hero of the Dime Novel Order for Dan Lyons.

The days pass slowly for the condemned murderers in the Tombs. The two Dannys-Driscoll and Lyons-are locked up from morning till night. They are on opposite sides of Murderers' Row, and their only relaxation is to place their mouths against the bars and shout out greetings to each other. A hundred times a day the corridor re-echoes with such cries as, "Hello. Danny, how d'ye like the soup?" "Cheer up old man, I've had a good feed and I'm going to take a

nap."
Warden Walsh sizes up Lyons as a man whose head has been turned by reading dime novels. He says Lyons looks upon Driscoll as a first-class hero, and worships him ac-

cordingly.

"Lyons is the smarter man, though," said

the Warden to a World reporter this morning. "See these two iron bars that they cut from their cots. Lyons had the sense to cut off the curved end and use it as a jimmy. Driscoll didn't know enough for that, and sawed off a straight piece of iron."

Mr. Howe intends to move on Monday for a new trial on the ground of newly discovered evidence. The case is the first to come up under the new provision of the code of civil procedure and Mr. Howe is unusually confident of the success of his application.

Lockwood, who nominated President Cleveland for four different offices, is registered at the Murray Hill Hotel.

Thomas Deianey, twelve years old, while on his way to school in the annexed district, on Nov. 30, caught his foot in a piece of wire lying on the sidewalk and was thrown heavily to the ground. His injuries were so severe that he had to be carried home. Three days later he died. A coroner's jury has just decided that his death was due to spinal meningitis brought on by his fall. The stormy meeting of the Kings County Democracy at Jefferson Hall, Brooklyn, last night, at which John Y, McKane and C. J. Ferguson were charged with hostilities toward the party has created no little comment in political circles in Brooklyn. By many it is conceded to be the beginning of the end of a long fight. Members of the committee who were seen this morning by a Workb reporter has nothing more to say than that already published. Daly is educating Ching-Ching and also little Bijou Fernandez. These interesting children go to Mrs. Sylvanus Reed's school. Said an actor yesterday: "It is amusing to see Daly with the little Fernandez girl. She reports to him every night at 7 o'clock. The other evening I was in the lobby of the theatre, and could hardly contain my laughter. Daly stood there asking the little girl what she had learned, and how she spelt this word, and what that word meant. It was as good as a play. as a play. Dixey's business in San Francisco still con-

The production of "Elaine" at the Madison Square Theatre to-night will be extremely interesting, inasmuch as it will reintroduce Miss Annie Russell and Miss Marie Burroughs, two ladies whose obscurity for the last few months metropolitan theatre-goers have mourned. J. Barton Key, before starting for Baltimore, discussed Mr. Miner's methods to a very considerable extent with his theatrical friends. It is thought that there will be what is popularly and graphically known as a lively time, if no satisfactory arrangement is made between the two gentlemen.

"A Hole in the Ground" will be given at the Fifth Avenue Theatre next week. This is generally looked upon as a remarkable error in managerial judgment, in view of the fact that the play was presented at the Peo-ple's Theatre, in the Bowery, and comes from there to a high-class house, thus reversing the usual order of things.

Erdelyi Naczi and his famous orchestra began an engagement at the Eden Musée last night, and his sojourn there will undoubtedly be attended with a very considerable amount of success. He was listened to with deep interest last night. Naczi was born in Ozegedin and was a professor in the Conservatory there. He has played in the principal cities of the world. He will be heard at the Eden Musee for a year. of the world. He was Museé for a year.

"Madelon," a comic opera, with music by Lecocq, was rendered at the Casino last night

"The Arabian Nights" was duly produced at the Academy of Music last night, and showed to far better advantage than at the Standard Theatre. The only trouble with this burlesque is the libretto of Alfred Thompson, which is so full of absurd local allusions, puns and rubbish that it detrects one's attention from the beauty of the scenery and the artistic stage effects. Wednesday matiness will hereafter be given at the Academy. To-morrow members of the theatrical profession are invited.

At the Grand Opera-House last night Jefferson, the ever popular, played "Rip Van Winkle" to a large audience. There were a number of new features at Dock-stader's. "Chris and Lena," a musical comedy in four acts, was well received at the Third Avenue Theatre. At Poole's Theatre "The Stranglers of Paris" was produced.

Hospital Saturday and Sunday The Collection Committees of the Hospital Satur day and Sunday Association have begun their annual canvass of the trades. To trades not yet organized into auxiliaries subscription lists have been mailed, and it is hoped by the association that in all mercantile and manufacturing estab-lishments where such lists are received, employers and employees, will make common cause in be-half of charity from which twenty-eight hospitals derive support.

Rockland Beaten at Football.

An exciting game of football was played las

Saturday at Nyack, N. Y., between the Rockland College Club and the Norwood, N. J., eleven, The visitors won after a hard struggle by the score of 4 to 0. Neither side scored in the first inning, but in the second half the Norwood eleven obtained a touchdown. They falled to kick a goal, however, owing to the muddy and slippery condition of the ground. Over a thousand spectators witnessed the game. Chused His Children with a Knife.

Whenever William Shearon, a laborer of 457 West Eighteenth street, gets mad at his children be fourishes a knife at them. Yesterday morning, while drunk, he chased the little ones around the room, table knife in hand, as usual. There was a lively time on the premises usual Policeman Mo-Nene ran in, knocked the weapon from the father's hand and looked him up. To-day, at Jefferson Market, Shearon was sent to the pententiary for three months.

Green Goods Men in Court. The "green goods" men, Charles A. Frost and George B. Oliver, who were arrested early yester-

day morning by Capt. Reilly, were arraigned at the Jefferson Mark-t Court this morning. Lawyer McClelland argued that the mere fact that the men had the green goods circulars in their possession showed nothing of crime, but the prisoners were held for trial in \$2,500 ball each, Drove Over a Shetland Pony.

Matthew Scaw, drove his ice cart over a Shetland pony, thirty inches high, in Tenth avenue, yesterday afternoon and broke one of the little animal's lega. Respite for Accused Financiers. Assistant District-Attorney Vernon M. Davis is this week relieving Mr. Fitzgerald in the Court of General Sessions and, in consequence, all action in the cases of Gould and Sage and of Ives and Stayner, against whom complaints have been joiged for alleged criminal tran-actions in finan-cial matters, has been postponed for a week.
